ROTARY INFORMATION: A message from Director-General Dr. Gro Hsarlem Brundtland

This spirit of partnership toward a historic goal in global health, a spirit which Rotary International has nurtured and campaigned, is a large part of the reason that I have made polio eradication a leading priority of the World Health Organization through 2005. The achievements of this partnership are almost as remarkable as the eradication goal itself. Nearly two billion children worldwide have been immunized during National Immunization Days.
