Geology on the Monaro - Dr Leah Moore

Issue: 13 October

Dr Leah Moore, a geologist with the University of Canberra, addressed the Cooma Rotary Club on 13 October, speaking about a field trip conducted in this area with some of her students. Three areas were examined, the Snowy Mountains in the Guthega and Island Bend area, Monaro Volcanics in the 'Arable' area, and Cooma Metamorphic centering on Nannygoat Hill. This area provides a wide variety of geological history because of the early glaciation and volcanic activity. Dr Moore stated that the Monaro region is quite unique in Australia because on just one property (Julie Js) four distinct soil types merge and can be studied by her students with a minimum of travel.

SUBJECT: 2 for 1 recognition credit for online contributions to PolioPlus

Sunday, 24 October 2010 is World Polio Day as determined by the UN. Rotarians around the world are planning events in celebration of this day. In San Francisco, approximately 2,000 people are expected to walk the Golden Gate Bridge along with President Ray. A lighting of the Ferry Terminal with END POLIO NOW is planned for the evening. For the week leading up to this event, The Rotary Foundation will be offering 2 for 1 recognition credit for every contribution of US\$100 or more made to polio on-line. The strategy is to encourage Rotarians to experience our on-line giving application in the hopes that they will find it simple and easy and come back to it again and again. On-line contribution processing is much less expensive than processing checks through the bank lockbox. The opportunity would be open to all Rotarians worldwide for one week. We have done an operational analysis to determine if our servers can accommodate the high volume of traffic anticipated. For such analysis, we assumed a total of US\$1 million in contributions over the course of the week. At the end of the week President Ray will communicate the results during the event in San Francisco. We will also announce the results on the Rotary web-page.
