Website Refresher - Steve Shirvington

Issue: 11 May

This week's address was by Rotarian Steve Shirvington, the subject was a refresher on the club website www.coomarotary.net.au and the facilities it provides to members and friends of the club. Steve briefly ran through the options available on the site and then covered in more depth some of the tools that can be used by members. This included

Pres Chris does the introduction

retrieving forgotten passwords, using the integrated email system, finding and downloading past club bulletins back to 2005. After reviewing the website basics, the floor was thrown open to questions from members. These came thick and fast and ranged from demonstrating the password retrieval

process to updating personal data and downloading information from the system. Steve offered club members the opportunity to form a group and have a more detailed run down on the site, this would benefit incoming board members who have the capacity to upload information, stories and pictures relevant to their portfolios. Steve reinforced the point that members and directors can and should provide content to the site to keep it current and interesting to those who browse the site. This is our portal to the world and we should be ensuring that all the good work done by the club is promoted to the local and international community. Lou Moore thanked Steve and gave him a kiss for good luck.

Thanks by Lou Moore
