Three Minuter - Brenda Campbell-Brown

Brenda came from a very close-knit Scottish family of five with bee-keeping a cultural element in the family. Bees were as lessons in hard work, as she got to know the structure of the beehive she realised that the hives included drones. Family tradition such as a new baby born into the family, the child was presented and introduced to bees, as was any family event. Yearly family get-togethers are around harvest time when the bees are relieved of the excess honey and everyone is given a job from striking the cap of the comb to spinning the honey out. Holidays are not taken during swarming. Honey was the cure of all illnesses, from smearing it on, to adding whiskey for colds, as you got older the whiskey was increased and the honey reduced. She said bees in the garden are a problem when mowing the lawn, but like vegemite it is there on the shelf when you want it.

Vale Richard Holgate

Our thoughts and sympathies are with David and Wendy after the tragic accident on Lake Jindabyne last Friday.

Donation to Library

David presented Librarian Pam Veiss with the final installment of Rotary's donation for this year. Again this money will be put into the Navigator Project that helps people with macular degeneration.

Thought of the Week - Brian Jeffries

I am only wise in so far as what I don't know, I don't think I know.
